PASS TO NPIC

REF: 4840 (IN 46625)

25X1

1. IN VIEW OF RECENT RADIATION TESTS AND LEVELS EXPERIENCED ON MISSIONS, USE OF SO-102 IS NOT AS DESIRABLE AS SO-130 OR SO-132. WHAT IS EXPECTED TO STOP? IS SO-102 THE SLOWEST FILM WE COULD USE?

2. ALSO, TECHNICAL CHARACTERISTICS SHOULD INCLUDE RELIABILITY ASSURANCE (AS WITH THE FRAME CAMERA) THAT FAILURE IN FLIGHT WILL NOT EFFECT THE PRIMARY MISSION.
